

Environmental Education

INDIVIDUAL/COMMUNITY INFORMATION

Pick up copies of our pamphlets:

- A Guide to Worm Composting
- Compost - Help Nature to Help You - (home composting)
- Natural Alternatives in the Garden
- Clean Green Alternative to Chemicals, Sprays & Fertilisers
- STOP - a pamphlet on Hazardous Waste
- Getting Wise with Water
- Where our Water Goes - a look at the wastewater and stormwater systems
- Can you Help our Environment - ideas that are simple, but can make a big difference
- Being Cleaner and Greener around the Home - natural alternatives around the house.
- Recycling Update
- Kids Edible Gardens
- A Guide to EM Bokashi Composting

We can also come and talk to local Marlborough community groups on any of the topics above.

Discount Vouchers

Council encourages residents to reduce the volume of organic waste that is produced in our region. To encourage this further the Marlborough District Council offers a \$15 discount on the purchase of worms or worm farm containers or on an EM Bokashi system. Council sells the EM Bokashi system from its offices. Please contact our Customer Service Officers on Ph: 520 7400 for further information. Worms can be obtained from Wairau Worms, Ph: 572 2636, email: wairauworms@kinect.co.nz.

Sustainable Living

The Sustainable Living programme encourages us to become more sustainable around our homes and gardens. Informal seminars are run in conjunction with our enviroschools programme in schools and will also be run to coincide with national sustainability days for the community. For further information on the sustainable living programme go to the Sustainable Living website <http://www.sustainableliving.org.nz/>. Pamphlets are also being produced on the information from the seminars and these will be available on our website as they are created.

For further information, please contact Annie McDonald, Education Officer, Marlborough District Council on 03 520 7400 or email annie.mcdonald@marlborough.govt.nz or visit our website on www.marlborough.govt.nz.
