**THE FOLLOWING INFORMATION IS ATTACHED:**

**Survey plan –** the plan needs to show the actual space the marine farm is occupying in relation to the authorised space. It should also show the coastal marine zone boundary (mean high water springs), adjacent structures and give details of water depth.

Notes: **Actual space** means the space in relation to which the deemed coastal permit is being exercised. **Authorised space** means the space specified in the deemed coastal permit.

*A coastal permit cannot be amended under this application to occupy a space greater than the authorised space. Therefore, if the actual space is larger than the authorised space your farm size must be reduced to that of the authorised space.*

**Assessment of Environmental Effects -** the assessment needs to address the effects of the activity in the actual space, and of moving the activity to the authorised space. It must include a description of the seabed composition within the actual and authorised space and include reasons for and against amending the permit to reflect the actual space.

**TERMS AND CONDITIONS:**

1. This application is made under section 53 of the Aquaculture Reform (Repeals and Transitional Provisions) Act 2004.
2. The applicant and the applicant's agent are liable for all fees and charges relating to this application. Payment is due within thirty (30) days of the issue date of the invoice. Council will charge interest on overdue invoices at 15% per annum from the date of issue to the date of payment. In the event of non-payment the applicant and/or the agent will be liable for all legal and other costs of recovery.
3. Where this application is completed and signed by an agent the invoice for the fees will be sent to the agent and all communication regarding the application will be with the agent.
4. Information supplied with the application is subject to release under the Local Government Official Information and Meetings Act.

I certify that the information provided is correct and I accept the above terms and conditions.
