BLLENHEIM

Attention: Mr K Heather

Dear Keith,

Re: Island Aquafarms Ltd Application.

Island Aquafarms Ltd have made two applications for resource consent to modify structures, and anchoring devices, discharge consent and to change species list on one licence MFL 048, site 8513.

Analysis of the effects of proposed fin fish farming was undertaken by Cawthron staff and considered both sites 8513 & 8515 together. The application therefore includes the data for both sites. Landscape assessment followed similar assessment.

Should you have any further queries please advise.

Yours sincerely,

RD Sutherland
for Property and Land Management Services Ltd
