Dear Brian

NZ King Salmon Monitoring Round 2010

Thank you for your letter 9 December 2010 advising of the delay in the monitoring programme for the 2010 period.

I am aware of Cawthron's efforts to refine the existing monitoring programme and have agreed that it would be appropriate for the revised programme to be peer reviewed, both by scientists in Tasmania and Professor David Shiel of Canterbury University.

On this basis I accept that the delay in this particular instance is reasonable and I look forward to receipt of the monitoring reports in February 2011.

Yours sincerely

KEITH HEATHER
RESOURCE MANAGEMENT OFFICER
