Please find enclosed the Wahi Tapu Stocktake Report relating to the Ngamahau site consent, as requested.

As discussed previously, Te Atiawa is comfortable sharing this with NZKS on the basis that the report remains within our direct control. Te Atiawa does not consent to this report being published or circulated further.

It is understood that the consenting authority may require formal advice from Te Atiawa stating that the conditions of the consent have been satisfied with regard to the Wahi Tapu stocktake. Te Atiawa is happy to furnish MDC with such a letter (if required).
