Dear Baz

Resource Consent U170579, Consent Numbers U170579.1 and U170579.2

This letter is to confirm that WorleyParsons New Zealand has reviewed the mooring configuration for site numbers 8632 (Waitata) and 8633 (Kopaua) and confirm that it is satisfied with the design, construction and installation of the surface floats provided they are maintained as per NZKS – Mooring Maintenance Standard.

The surface floats are compatible with the overall design and safe operation of the farms anchoring and mooring warp system.

Yours faithfully
