Subject: RE: Greywater discharge and feed logs

Hi Claire

We've now got a barge on site at Kopāua, so I've included it in the summary as follows:

- Kopāua: 345 litres per day
- Waitata: 736 litres per day
- Te Pangu 526 litres per day
- Clay Point 526 litres per day
- Ngamahau 526 litres per day

Thanks

From
Mark

Subject: Greywater discharge and feed logs

Good Morning Mark,

I'm just working through the latest compliance reports.

Could you please provide me with the greywater discharge volumes for Te Pangu (condition 29), Clay Point (condition 24), Ngamahau (condition 45) and Waitata (condition 45). I understand there was no greywater discharge at Kopāua previously, can you please confirm if that is still the case?

Could you also please provide me with a copy of the feed logs for Te Pangu (condition 28) and Clay Point (condition 25)?

With thanks,

Claire Frooms
