Additionally, Mark Peters queried the Small Business Cashflow (Loan) Scheme and the Interest free period that was recently announced by Government. We have done some further research and can confirm that if the loan is repaid in full within two years, that the receiving customer will not be charged any interest. If the loan is not repaid within the first two years, the loan will be subject to an annual interest rate of 3% from the date the loan was entered. In regard to customers who have already received the loan, we'll update the terms and conditions of existing loan contracts to include the changes. They don't need to get in touch with us. We'll do this by 31 December 2020 and we'll let them know when we've made the change.
