

## How to read the data

# Weekly Consumption

Note: The above graph illustrates the water consumption in litres per week for each household with four or five people. The *trial property reference* number for each group refers to the consumption for a specific property, and is used for owners to identify their individual consumption over a seven day period.

When calculating your possible charges, 1000L (Litres) = 1m<sup>3</sup> (cubic metre).

## Consumption vs. Property Size

| RENWICK - May                   |                               |                                 |                                 |                                  |                                  |                                  |
|---------------------------------|-------------------------------|---------------------------------|---------------------------------|----------------------------------|----------------------------------|----------------------------------|
| Trial Property Reference Number | Property Area (Square Metres) | 26 - 3 May Consumption (Litres) | 3 - 10 May Consumption (Litres) | 10 - 17 May Consumption (Litres) | 17 - 24 May Consumption (Litres) | 24 - 31 May Consumption (Litres) |
| 16                              | 800                           | 7,564                           | 11,553                          | 8,459                            | 12,926                           | 11,621                           |
| 14                              | 815                           | 2,770                           | 1,640                           | 3,140                            | 2,619                            | 1,639                            |
| 31                              | 880                           | 1,140                           | 1,090                           | 981                              | 1,002                            | 1,026                            |
| 20                              | 908                           | 2,551                           | 1,903                           | 2,196                            | 2,280                            | 1,967                            |
| 15                              | 1,133                         | 7,758                           | 7,883                           | 7,343                            | 9,338                            | 8,369                            |
| 17                              | 1,177                         | 16,539                          | 13,316                          | 14,177                           | 6,572                            | 16,179                           |
| 43                              | 1,253                         | 3,604                           | 3,522                           | 4,316                            | 3,257                            | 4,059                            |

Note: The above table includes the consumption of water in litres for a seven day period, for each household with four or five people, as well as the corresponding property area.

When calculating your possible charges, 1000L (Litres) = 1m<sup>3</sup> (cubic metre).
