

Banded Dotterel “Hot Spots” along East Coast surveys

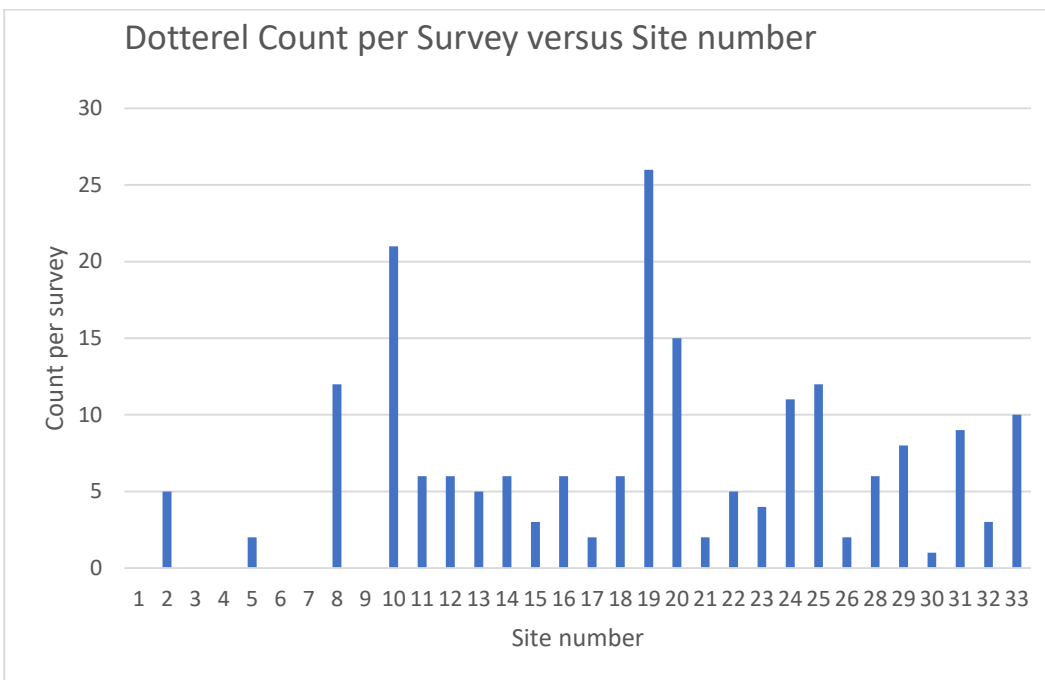

Banded dotterel count totals over all surveys versus Site number (Graph 1).

See accompanying maps of survey Site numbers

Site 10 corresponds to an area 1-2 km south of Cape Campbell

Sites 19 -20 correspond the area about 5 km north of Ward Beach.

Birds at “hot spots” were seen on more surveys and at higher numbers for each survey (Graph 2)

1. Marfells Beach to Cape Campbell (1 - 8)

2. Cape Campbell to Crooked Hut (8 - 13)

3. Crooked Hut to Ward Beach (13 - 25)

4. Ward Beach to Waima/Ure (25 - 34)
