

Forestry Submission Points Affected by the National Environment Standards for Plantation Forestry

The National Environmental Standards for Plantation Forestry (NES-PF) provide nationally consistent regulations to manage the environmental effects of forestry. Other than where a greater level of stringency is specifically provided for, the NES prevails over plan rules. Therefore, as required by section 44A of the Resource Management Act 1991, the provisions of the proposed Marlborough Environment Plan have been aligned with the National Environment Standards for Plantation Forestry.

Where provisions have been removed, there is no need or ability to hear submissions on the provisions. A list of submission points affected by the realignment can be found below.

| Submission Number | Submission Point | Submitter | Volume | Chapter | Provision |
|-------------------|------------------|--------------------|----------|--|-----------|
| 41 | 1 | Edward Ross Beech | Volume 2 | 3 Rural Environment Zone | 3.3.6.1. |
| 149 | 13 | PF Olsen Ltd | Volume 2 | 3 Rural Environment Zone | 3.3.6.1. |
