				<p>Hearing Panel to read: <i>Policy 7.2.7 – Protect the values of outstanding natural features and landscapes <u>outstanding natural landscapes</u> and <u>maintain and enhance the high amenity values of the Wairau Dry Hills and the Marlborough Sounds High Amenity Coastal Landscapes</u> by: ...</i></p>
5	26 March 2020	2	<p>Topic 11: Coastal Environments</p> <p>Para 358</p>	<p>The Panel’s decision at para 358 of the Coastal Environment topic included four new definitions in the PMEP - Light Fouling, Macro Fouling, Micro fouling and Navigational aid.</p> <p>The tracked changes version of Volume 2, Chapter 25, will be amended to include the omitted definitions, as follows:</p> <p>Light fouling means small patches (up to 100 millimeters in diameter) of visible fouling, totaling less than 5% of the hull and niche areas. A slime layer and/or goose barnacles are included in this definition.</p> <p>Macrofouling means any organism or life stages of an organism not included in the definition of microfouling.</p> <p>Microfouling means a layer of microscopic organisms including bacteria and diatoms and the slimy substances they produce. Often referred to as a ‘slime layer’, microfouling can usually be removed by gently passing a finger over the surface.</p> <p>Navigational aid has the same meaning as in Section 2 of the Maritime Transport Act 1994</p>

No.	Date of issue	Volume	Decision reference	Error/Omission
6	27 March 2020	3	Topic 11: Coastal Environments Para 319	Provisions 7A.1 and 7B.1 in Appendix 16 erroneously contain reference to Appendix 21. Reference 21 has been deleted as a consequence of the Panel's decision. The provisions will be amended by removing the reference to "...identified in Appendix 21..."
7	27 March 2020	2	Topic 11: Coastal Environments Para 316	Due to the Panel's decision to delete Appendix 21 from Volume 3, the definition of 'Lake Grassmere Salt Works Intake and Pipeline Corridor' is amended to read: 'as identified on Zone Maps.'
8	3 April 2020	4	Topic 5: Natural Character – Technical Mapping Para 176	The Panel decided to remove areas of exotic forestry from the Natural Character Overlay on the property of Dallas Hemphill as set out in the response to Minute 19, prepared by James Bentley. Only one of the two areas identified to be removed from the overlay in that response was removed. The second area is to be removed in accordance with the Panel's decision.
9	14 April 2020	2	Topic 15: Transportation and Signage. Para 139	The Panel's decision was to include new wording at notified provision 2.35.1.11. The tracked changes version will be amended to read: <i><u>The minimum distance between signs on successive properties, and between signs and official road signs, as read from the one direction and</u></i>

No.	Date of issue	Volume	Decision reference	Error/Omission
				<i>measured parallel to the centre-line of the road, must be as shown in Table 2.12</i>
10	14 April 2020	1	Topic 3: Natural Physical Resources. Para 422	The Panel's decision is to include the word 'reasonably' in Policy 4.2.2. The tracked changes version will be amended to read: <i>... In respect of the electricity transmission network, it is a requirement of the National Policy Statement on Electricity Transmission (NPSET) for decision makers, <u>to the extent reasonably possible</u>, to manage activities to avoid reverse ...</i>
11	14 April 2020	1	Topic 3: Natural Physical Resources. Para 306.	In regards to Policy 4.3.2, the Panel decision is to replace the word 'will' with 'may'. The tracked changes version will be amended to reflect this, as follows: <i>In order to determine whether particular activities in the Marlborough Sounds will <u>may</u> have significant adverse effects, it is necessary to identify the qualities and values that contribute to the unique and iconic character of the Marlborough Sounds. ...</i>
12	14 April 2020	1	Topic 3: Natural Physical Resources. Para 262.	In the second para of Method 4.M.9, the word 'within' is not showing a strikethrough. The sentence should read as follows: <i>This includes development within <u>in the vicinity of the National Grid corridor</u>.</i>

No.	Date of issue	Volume	Decision reference	Error/Omission
13	14 April 2020	1	Topic 3: Natural Physical Resources. Para 262.	Subsections (e) and (f) of notified Policy 5.10.5 (now Policy 13.19.8 in Chapter 13: Use of the Coastal Environment and Allocation of Coastal Space chapter) are inverted in the tracked changes version. The tracked changes version will be amended to reflect the decision.
14	14 April 2020	1	Topic 5: Natural Character. Para 56.	The Panel's decision on the explanatory text to Policy 6.1.1 uses the phrases 'matters that contribute' rather than the tracked changes 'considered to contribute'. The tracked changes version will be amended to read: <i>This policy describes those matters <u>that considered to contribute to the natural character of coastal and river environments. This provides MEP users with a clear understanding of the meaning of natural character.</u></i>
15	14 April 2020	1	Topic 5: Landscapes Para 56.	Policy 7.1.1 (d) is included into the policy in error (it replicates the addition to Policy 7.1.2 that is shown correctly in the tracked changes version) (d) will be removed from the tracked changes version.
16	14 April 2020	1	Topic 6: Indigenous Biodiversity. Para 13.	The final two sentences of the explanatory text to Objective 8.1 in the decision differ to the tracked changes version. The tracked changes version will be amended to read: <i><u>This is because indigenous biodiversity is also a component of natural character. For this reason, policies in this chapter that provide for the protection of indigenous biodiversity in the coastal environment, wetlands,</u></i>

No.	Date of issue	Volume	Decision reference	Error/Omission
				<p><u>rivers, lakes and their margins gives effect to both Section 6(a) and (c) of the RMA and achieves the direction set out in Policies 13 and 14 of the NZCPS.</u></p>
17	14 April 2020	2	<p>Topic 6: Indigenous Biodiversity.</p> <p>Para 279.</p>	<p>The Panel inserted the words 'within the coastal environment' into rules 4.3.10.3, 13.3.20.3, 19.3.3.3, 22.3.8.3 and these have been omitted from the tracked changes version.</p> <p>The tracked changes version of rules 4.3.10.3, 13.3.20.3, 19.3.3.3, 22.3.8.3 will each be amended to read: <i>Clearance of indigenous vegetation <u>within the coastal environment</u> must not occur ...</i></p>
18	14 April 2020	4	<p>Topic 5: Landscapes</p> <p>Para 211.</p>	<p>The Panel's decision was to remove the 'Marlborough Sounds High Amenity Landscape' from urban zonings.</p> <p>This has been removed from the appropriate zoning maps.</p>
19	14 April 2020	1	<p>Topic 8: Heritage Resources and Notable Trees.</p> <p>Para 55</p>	<p>New Policy 10.1.6 incorrectly references Policy 10.1.7.</p> <p>The tracked changes document will be amended to refer to Policy 10.1.8.</p>
20	14 April 2020	2	<p>Topic 6: Indigenous Biodiversity.</p>	<p>The Panel decided that the Threatened Environments Overlay (TEO) would only apply to specific zones. Neither the Coastal Living or Lake Grassmere Saltworks zones were included in the zones specified and therefore the TEO would be removed from these. As a consequence, the references to the</p>

No.	Date of issue	Volume	Decision reference	Error/Omission
			Para 266.	<p>TEOs in the Coastal Living and Lake Grassmere Saltworks Zone rules will be removed.</p> <p>The tracked changes version of the decision will be amended and standards 7.3.7.3 and 22.3.8.3 will read as follows:</p> <p><i>Clearance of indigenous vegetation must not occur: (a) on a Threatened Environments—Indigenous Vegetation Site; (b) on land above mean high water springs that is within 20m of an Ecologically Significant Marine Site.</i></p> <p>And clause (e) in Standard 7.3.7.2 will be deleted.</p>
21	21 April 2020	4	<p>Topic 21: Zoning and Definitions</p> <p>Para 139.</p>	<p>The boundary of the amended zoning for the Rewa Rewa property did not exactly replicate the boundary of the zoned area sought in submission and in evidence, as referred to in the Panel's decision.</p> <p>Zoning Map 76 will be amended with the correct zoning boundary.</p>
22	21 April 2020	2	<p>Topic 18: Nuisance Effects and Temporary Military Training</p> <p>Para 93.</p>	<p>The tracked changes version of the amended text for Standard 12.2.2.1 omits the word 'other' as shown in the Panel's decision.</p> <p>Standard 12.2.2.1 will be amended to read:</p> <p><i>An activity must not cause noise that exceeds the following limits <u>at any point within the boundary of any other property zoned Industrial 1</u> the zone boundary or within the zone: ...</i></p>

No.	Date of issue	Volume	Decision reference	Error/Omission
23	21 April 2020	1	<p>Topic 8: Heritage Resources and Notable Trees</p> <p>Para 120.</p>	<p>The Panel accepted the deletion of the word 'District' from the title of Method 10.M.2, as stated in the report writer's Reply to Evidence and referred to in the Panel's consideration.</p> <p>The title for Method 10.M.2 is amended to read:</p> <p><i>'10.M.2 District Rules'</i></p>
24	21 April 2020	3	<p>Topic 8: Heritage Resources and Notable Trees</p> <p>Para 50.</p>	<p>The Panel's decision amended all instances of Category I and II sites to A and B respectively. When the amendments were being made to Appendix 13, two references to the NZHPT Category 1 and 2 were also changed.</p> <p>These will be amended to read:</p> <p>This schedule includes all Heritage New Zealand Category <u>A1</u> Heritage Resources in Marlborough.</p> <p>This schedule includes all Heritage New Zealand Category <u>B2</u> Heritage Resources in Marlborough, as well as some Heritage Resources considered to be locally significant.</p>
25	21 April 2020	2	<p>Topic 6: Indigenous Biodiversity</p>	<p>Policy 8.3.5 has a typographical error. It lists ESMS 3.9 as a King Shag site this should read 7.9.</p> <p>The ESMS sites come from the Ecologically Significant Marine Sites Inventory report 2011 (Davidson et al). Site 7.9 (White Rock) is clearly identified as the king shag site.</p>

No.	Date of issue	Volume	Decision reference	Error/Omission
26	21 April 2020	1	<p>Topic 11: Coastal Environments</p> <p>Para 13</p>	<p>There are discrepancies between the decision version and tracked changes version for Policy 13.1.1.</p> <p>The tracked changes version will be amended to read:</p> <p><u>Protect against inappropriate subdivision, use and development by avoiding adverse effects on the characteristics and values identified as having:</u></p> <p><u>(a) Outstanding natural character</u></p> <p><u>(b) Outstanding natural features and/or outstanding natural landscapes;</u></p> <p><u>and avoiding significant adverse effects on:</u></p> <p><u>(c) marine biodiversity or cultural values and/or a significant wetland; or</u></p> <p><u>(d) sites and places of significance to Marlborough's Tangata Whenua iwi;</u></p> <p>Policy 13.1.1 identifies four <u>outstanding</u> significant matters upon which the adverse effects of activities are to be avoided <u>and requires significant adverse effects to be avoided on other values and sites</u>. These matters are given particular direction through the principles of the RMA (Sections 6(a), (b), (c) and (f)) and through direction provided by NZCPS Policies 11, 13, 15 and 17. However, it is important to acknowledge that implementing the policy does not mean that all activities are prohibited from occurring in the areas with the identified values; it simply makes clear that any adverse effects of activities must be avoided in those areas, rather than being mitigated or remedied.</p> <p>Other Chapters with provisions relevant to this Policy include Chapters 3, 6, 7, 8 and 10</p>
27	21 April 2020	4	<p>Topic 18: Nuisance Effects and Temporary Military Training</p> <p>Para 187.</p>	<p>Alterations to the noise control boundaries for Port of Picton and Havelock Harbour determined by the Panel were not shown in the relevant overlays in Volume 4.</p>

No.	Date of issue	Volume	Decision reference	Error/Omission
28	29 April 2020	4	Topic 6: Indigenous Biodiversity	The Panel adopted the Section 42A recommendation to modify Ecologically Significant Marine Sites 1.2, 1.4, 1.5, 2.6, 2.12, 2.13, 2.15, 2.18 and 2.20 and to add a new site, 1.9. These modifications and the addition were not included in the Ecologically Significant Marine Site Overlay maps in error.
29	30 April 2020	3	Topic 5: Natural Character – Technical Mapping	An error has been made in the mapping of C6 in Appendix 2 as it has missed the very high and outstanding natural character area of the Pelorus/Havelock Estuary as set out in the response to Minute 55 by James Bentley. Appendix 2 will be amended to include this.
30	30 April 2020	3	Topic 6: Indigenous Biodiversity	The Site ID for Motuanauru Island Boulder Bank in Appendix 27 incorrectly references it as site 1.2. This will be amended to refer to the correct Site ID, this being 1.4.
31	30 April 2020	2	Topic 15: Transportation and signage. Para 140	Table 2.12 of the Panel's decision has both the words 'visibility' and 'minimum' The word 'visibility' in the decision should be showing with a strikethrough as shown in the tracked changes version. The insertion of the word 'minimum' is correct.
32	30 April 2020	1	Topic 3: Use of Natural and Physical Resources.	The addition of network utilities to Issue 4B is a consequential change as a result of the decision to include it in Objective 4.2. In order to address

No.	Date of issue	Volume	Decision reference	Error/Omission
			Para 176.	network utilities in the objective, it must first be identified as part of the issue.
33	30 April 2020	1	<p>Topic 11: Coastal Environments.</p> <p>Para 549</p>	<p>Topic 11 amends the title of notified 5.M.10. Para 465 relocates this method to the Use of the Coastal Environment and Allocation of Coastal Space chapter and renumbers it 13.M.33.</p> <p>This is an editing error as the Panel intended for the replacement of the explanatory text and therefore the first paragraph should have been showing with a strikethrough as follows:</p> <p>Include provisions relating to the requirement for coastal occupation charges for port facilities where appropriate, moorings, marinas where appropriate, marine farms, jetties, wharves, boat ramps and slipways, boatsheds and other structures and utilities. Rules will also require discretionary activity applications to be made to enable an assessment of whether an exemption or waiver of any charge should be granted.</p> <p>Coastal occupancy charges will be imposed on the consent holders of all eligible coastal occupations and the occupiers of permitted activity moorings in a Moorings Management Area, taking into account any exemptions or waivers from the charges that have been obtained by the consent holder.</p>
34	30 April 2020	1	<p>Topic 5: Natural Character.</p> <p>Para 36.</p>	<p>The format of the new text at the beginning of Chapter 6 differs from the decision in the tracked changes. The tracked changes will be amended to read:</p> <p>... The natural character characteristics that have been identified are included in Appendix 2 (coastal), Appendix 5 (freshwater). Specific areas of</p>

No.	Date of issue	Volume	Decision reference	Error/Omission
				high, very high, and outstanding natural character are identified on the planning maps in Volume 4. ...
35	30 April 2020	1	Topic 5: Natural Character. Para 56.	Amend the tracked changes version of Policy 6.1.1 to reflect the wording used in the decision. (b) is to read as follows: (b) Biotic systems – species, communities, habitats and ecological processes; and
36	30 April 2020	2	Topic 6: Indigenous Biodiversity. Para 278.	The reference to “commercial forestry” in Standard 13.3.20.2 was deleted from the PMEP as a result of alignment with the NESPF (as indigenous vegetation clearance in or near plantation forestry is managed under the NES and the Council cannot be more stringent). The “within 50 metres” is deleted from the standard as a result of the Panel’s decision and applies to woodlot forestry and shelterbelts only. This second change is correctly shown in the decision document. Via Topic 22, the term “commercial forest” is also replaced by “plantation forest” throughout the Plan. This error will be rectified and the standard will be amended to read: “indigenous vegetation under or within 50m of commercial plantation forest, woodlot forest or shelter belt”
37	30 April	1	Topic 6: Indigenous	Text has been omitted from the decision wording of the new Policy 8.3.10 in error. In its consideration, the Panel relied on Ms Stevens wording, on behalf

No.	Date of issue	Volume	Decision reference	Error/Omission
	2020		Biodiversity Para 132.	<p>of Ngai Tahu, as received in a Memorandum dated 7 March 2018. The full text of Policy 8.3.10 is:</p> <p><u>Customary harvesting is essential in enabling Marlborough's tangata whenua iwi to exercise kaitiakitanga and to provide for their relationship with their culture, lands, water and other taonga. Cultural harvest may be for different reasons, including but not limited to, medicinal uses, ceremonial uses, weaving or for consumption. It is important that taonga and other species can be accessed by iwi throughout the District, including from sites and areas that retain significant indigenous biodiversity value. As described here, customary harvest is unlikely to involve indigenous vegetation clearance and the rules identified in Method 8.M.2 would not apply. Where particular resources are available on private land, access agreements or case by case permissions from the landowner are essential before entry onto the property is allowed.</u></p>
38	30 April 2020	1	Topic 8: Heritage Resources and Notable Trees. Para 74.	The amended statement of Policy 10.1.9 in both the decision document and tracked changes version of the Plan restricts the application of the policy to sites and places identified in Schedule 3 of Appendix 13. The decision document does not delete the reference to waahi tapu site or area in error.
39	7 May 2020	2	Topic 14: Waste and Discharges to Land	<p>New standards 3.3.35.5. and 4.3.33.4. for the storage of compost not in a pit or stack incorrectly reference 'silage in a stack(s), or stockpiling of agricultural solid waste'. These will be removed from the text.</p> <p>Standards 3.3.35.5 and 4.3.33.4 will be amended to read:</p> <p><i>The total area of any compost stored on a single land holding is less than 500m²</i></p>

No.	Date of issue	Volume	Decision reference	Error/Omission
				<i>in area.</i>
40	7 May 2020	2	Topic 20: Utilities & Designations	<p>Notified Standard 5.2.1.18. was replaced with a new standard. However, when the MEP was updated, the old text was removed completely.</p> <p>This text will be reinserted and shown with a strikethrough as follows (in case the provision is appealed):</p> <p>A building or structure must not be constructed or sited within 90m of the designation boundary (or secured yard) of the National Grid Blenheim substation.</p>
