Decision Requested	<p>I want the Plan to Recognise that aquaculture, farming, forestry and vineyards and tourism are regionally significant sectors in Marlborough's economy that sustains our communities (Add a new Issue to Vol 1, page 2-1). Acknowledge that aquaculture, farming, forestry and vineyards employ people and spread wealth. Council needs to find ways to enable these sectors to grow, while recognising and protecting the special qualities of Marlborough (Amend Issue 4B and Objective 4.2 to recognise that regionally significant sectors are at risk if unable to operate efficiently and effectively (Vol. 1, page 4-5).</p> <p>Provide an opportunity for local businesses to have certainty so as to invest with confidence in their and my future (Add to Policy 4.2.1 a list of areas of significant aquaculture and wine development). Ensure that developments like marine farms, once consented, are allowed to stay, as long as their owner does a good job and obeys the rules (Add a new rule to this effect in Vol 2).</p> <p>Create ways that encourage people and businesses to strive to be more sustainable (Add a wider range of non-regulatory methods to the plan aimed at building awareness). Grow our region while also caring for the environment, our landscapes and protecting natural character (Amend Issue 4C, Objective 4.3, Issue 6A, Objective 6.1 and flow on policies by recognising and providing for the existing and changing land and seascapes of use of agriculture, aquaculture, cattle farming, dairy, vineyards and tourism.</p>

Decision						

Requested • Include an alternative pathway in the MEP to encourage proactive on-farm behaviour through the adoption of Farm Environment Plans.

- The alternative pathway could be to the effect of:

Farming (except intensive farming) undertaken in accordance with a council approved Farm Environment Plan template is a permitted activity, provided the Farm Environment Plan is prepared and implemented in accordance with (schedule X or to like effect), and provided to Marlborough District Council on request.

OR

- introduce a method that allows farmers to develop a farm environment plan that enables them to demonstrate compliance with permitted activity rules

- Schedule X could be to the effect of:

A map or aerial photograph showing:

- The boundaries of the property or within the farm enterprise;
- The boundaries of land management units on the property or within the farm enterprise
- The location of permanent and intermittent rivers, streams, lakes, drains or ponds;
- The location of riparian vegetation and fences adjacent to water bodies;
- The location of any areas within the property that are identified in a District Plan as "significant indigenous biodiversity;" and
- The location of any known and recorded heritage sites.

- A description of the Good Management Practices that will be implemented to target the following management areas, where relevant:

- Nutrient Management;
- Irrigation Management;

	<ul style="list-style-type: none"> - Soils Management; - Waterbody Management; and/or - Point sources (e.g. offal pits).

Decision Requested	<ul style="list-style-type: none"> - recognize Aquaculture as an important component of economic growth both locally and Internationally - provide Marine farmers certainty of a future by making relicensing less bureaucratic if all requirements are met. Existing owners should not have to compete for space they have already been licensed for and waste money in court trying to justify this - work with the Aquaculture Industry regarding environmental issues which is highly desirable for both parties. It is in the best interest of Marine farmers to protect their product by ensuring the environment is of the highest standard for growing so both parties have here a common interest - recognize that the Industry is significant in providing long-term employment to the people of the Marlborough area. - recognize that New Zealand has a unique opportunity (in the Marlborough Sounds) to provide a top quality sea food. We should all be proud of this and own it! The demand worldwide for safe, quality sea food is something that New Zealand recognizes and can produce, this the Councils should support the industry and help in a positive way that makes it possible to get on with the job for both the people of the area and Industry.
