Appendix C – Consultation Summary

Prior to the notification of the plan change, all owners of new notable or historic trees not currently listed in the Plan, were consulted regarding Council’s intention to include their tree(s) for protection within the relevant Resource Management Plan.

This consultation began in June 2007 MDC, when Council contacted landowners of newly identified trees seeking permission for their trees to be included in the Plans. Thirty-six land owners gave permission to include notable or historic tree(s) found on their land, for protection under the applicable Plan.

By late 2008, in support of the objectives and policies contained in Marlborough’s Resource Management Plans, Council had moved to take a more proactive approach in the protection of Marlborough’s heritage tree resources. This involved further research and investigation into the heritage trees existing within Marlborough. Using Plan criteria as an objective measure to determine the appropriateness of whether or not to include a tree in the heritage register, additional heritage trees were identified. This change in process signalled a move away from voluntary land owner initiated tree registration, to Council initiated tree registration. All landowners affected by any Council recommendation for tree protection, were consulted as part of this process. This consultation process adopted is consistent with the requirements of Schedule 1 of the RMA 1991, and provides that all affected parties have an opportunity to express their opinions, and that these opinions are taken into account by Council during any subsequent decision making process.

Eight iwi have Tangata Whenua status in Marlborough and all eight were consulted of Council’s proposed plan change as required under Clause 3(1) of the First Schedule of the RMA. As a result of this consultation, the Ngati Rarua Trust were the only iwi that responded, advising they do not have any issues with respect to the proposed changes.

The following is a summary of the consultation undertaken in November 2008 and describes Council’s response to the community feedback received in the form of a recommended action. From 37 letters sent out, only 13 responses were received.

40 Kingwell Dr, Blenheim London plane (2) Tulip tree	26/02/09 – The owner has requested that the trees are not protected.	These trees are currently protected within in the Wairau/Awatere Resource Management Plan under the heritage register, albeit under a different address due to a previous subdivision of the land in which the trees are located. Council therefore wish to maintain the protection of the trees under the heritage protection provisions of the Plan, but seek to update address currently contained in the Plan to accurately reflect their location.

<p>84 Nelson St, Blenheim</p> <p>Kauri</p> <p>Red horse chestnut</p>	<p>12/02/09 - The owner is happy for the two trees to be protected under the Plan.</p>	<p>Protection recommended.</p>
<p>45 Houldsworth St, Blenheim</p> <p>Redwood</p>	<p>16/02/09 - The owner requests that the trees not be protected under the Plan.</p>	<p>These trees are currently protected through the subdivision consent that created these two property land parcels. It is therefore recommended that the protection of these trees be over into the heritage schedule,</p>
<p>2 Park View Lane, Blenheim</p> <p>Cyapris</p>		
<p>‘Seven Oaks’ 106 Brookby Rd, Hawkesbury</p> <p>Spanish fir</p>	<p>23/03/09 - The owner is happy for the tree to be protected under the Plan. The owner also informed that there is a Norway spruce listed in the Wairau/Awatere Resource Management Plan which once grew on his property however no longer exists</p>	<p>Protection of the Spanish fir is recommended. The Norway spruce should be removed from the Plan as it no longer exists.</p>
<p>‘Langley Dale’, Northbank Rd, Blenheim</p> <p>Gum</p> <p>Oak</p> <p>Horse chestnut</p> <p>Sweet chestnut</p>	<p>13/02/09 - The owner advises Council that the Sweet chestnut is dying, and therefore requests that the tree not be included in the plan change</p> <p>20/02/09 -The owner requests that no trees be protected under the Plan.</p>	<p>Council notes that the trees commemorate an important local event, and as such should be protected under the Plan.</p>
<p>53 Waikawa Rd, Picton</p> <p>Mountain beech</p>	<p>16/02/09 - –The owner has been advised by David James Tree Surgeons that the tree is dying. There is an existing covenant on the property protecting the tree.</p>	<p>Council recommend that the tree be protected within the Plan given it is a good example of the remnant of the original native vegetation found in the area.</p>

50 Beach Rd, Picton Maple	19/02/09 -The owner has advised that there are two or more Maple Trees located on the property, with one of these being quite degraded. The owner seeks to maintain the right to chop the trees should they desire.	Council recommend that that the degraded maple tree not be included within the Plan.
‘Holy Trinity Anglican Church’ 38 York St, Picton Turkey oak Ash Golden elm Kowhai Claret ash Silver birch	13/02/09 – Feedback requesting further verification of which trees are sought to be protected. 20/02/09 - No objection to the protection of the Turkey oak, Golden elm & Kowhai to be protected. However, objection to the protection of the Ash, and the Claret ash & Silver Birch as it is advised that they no longer exist.	Council has received confirmation from an arborist that all trees except the Silver birch, are existing in nature, and Council seeks to protect them for there associated heritage values.
94 Wellington St, Picton Silver beech	17/02/09 - –The owner has advised that the tree is problematic and request it be removed.	As advocated by David James Tree Surgeon, this tree is recognised as a good example of the species. With the tree meeting the protection criteria contained in the Plan, Council recommend that the tree be protected.
123 Wellington St, Picton Japanese cedar Evergreen magnolia	12/02/09 - The land owner has advised that the Japanese cedar has died, but the Magnolia still exists. The land owner does not object to the protection of magnolia.	Protection of the magnolia is recommended.
